

If the products in the four circles are added, the result is the number in the central square. Find the missing multiplication.

1

$\text{○} + 2 \times 5 + 2 \times 1 + 2 \times 6 + \text{○} = 28$

2

$\text{○} + 2 \times 3 + 2 \times 2 + 2 \times 7 + \text{○} = 34$

3

$\text{○} + 2 \times 4 + 2 \times 7 + 2 \times 5 + \text{○} = 48$

4

$\text{○} + 2 \times 2 + 2 \times 9 + 2 \times 1 + \text{○} = 36$

5

$\text{○} + 2 \times 9 + 2 \times 7 + 2 \times 8 + \text{○} = 56$

6

$\text{○} + 2 \times 9 + 2 \times 6 + 2 \times 3 + \text{○} = 50$
